Corey Falls

APPLICATION DEVELOPER

Nashville, TN | 731.234.6190 | cfalls20@yahoo.com

Objective

Motivated IT professional with a journey that began as a self-taught front-end developer and evolved into a cybersecurity enthusiast. Currently pursuing a Bachelor of Science in Cybersecurity and Information Assurance at WGU (Western Governors University), with a hands-on approach to learning through home labs focused on routing, switching, and Active Directory. Adept at front-end and back-end development, specializing in UI/UX design, database management, and API integration. Proven experience in applying robust security measures, emphasizing cloud security best practices to safeguard applications. Possesses creative problem-solving skills, leadership qualities, and a strong commitment to integrating security seamlessly into the development lifecycle. I am excited about leveraging this diverse skill set to contribute effectively as a Cloud Security Engineer.

Experience

Accenture | Application Developer   **08/2022 - Present**

- Implemented robust security measures in front-end and back-end development, emphasizing cloud security best practices to safeguard applications.
- Orchestrated the integration of security protocols into UI/UX design, database management, and API interactions, contributing to the overall resilience of the system.
- Applied cloud security principles to ensure the confidentiality, integrity, and availability of applications, demonstrating a strong commitment to cybersecurity.
- Leveraged creative problem-solving skills to address security challenges, fortifying applications against potential vulnerabilities and threats.
- Collaborated seamlessly within a development team, fostering a security-first mindset, and incorporating cloud security engineering into the development lifecycle.

Target | Inbound Expert   **12/2021 - 08/2022**

- ● Conducted efficient and accurate sorting operations, contributing to a streamlined workflow and on-time processes.
- ● Maintained a commitment to ethical conduct, safety, and compliance, fostering a positive work culture within the team.
- ● Demonstrated attention to detail in executing daily responsibilities, ensuring quality and precision in all tasks.
